

ClubLocarno Covid-19 Protocols Phase I

Planning

- Review craft signout from home to check activity levels - if usage is high, consider using a different fleet or visit on a different day

General

- **Observe JSCA Covid-19 Safety Protocols:**
 - Register upon entry
 - Stay physically distanced (2 Metre separation) at all times.
 - Wear a face mask at all times
 - Wash hands frequently
 - Be kind to one another
- **Practice the Locarno Way:**
 - Share and play nice. Observe time limits, and be courteous, considerate and fair to others.

Craft Usage

- **Enter club rooms only when unoccupied** - one person per room unless with people who are 'in your circle' i.e. people with whom you live. Be brief and be gone if there is anyone else around - change rooms will be provided, and logs and registers can be completed from without.
- **Use your smartphone to complete the craft log and guest register** - instructions and links are provided in each club room
- **Close and lock compound gates behind you** - you will need to obtain a key from JSCA office if you don't have one already
- **Use multi-person craft only with people who are in your circle**
- **You may only bring a guest from your circle**, unless you are using the SUP fleet and can maintain required distancing
- **Minimize use of shared spaces to store personal gear** - other options are
 - leave it in your car or personal locker
 - use a day locker in the main building
 - stow it where your kayak hatch covers were stored
 - take it to sea in a hatch or dry bag
- **Wash your hands before going out on the water** (you might touch your face while out there after having handled doors, locks, shared equipment);

Cleaning

- **Disinfect contact points on shared gear with soap and water;** oar handles, paddle shafts, tiller extensions, PFD's; There should be soap dispensers near the hoses throughout the compound.
- **Wash your hands after cleaning up and before leaving the compound.**
